Old Dominion University

Old Dominion University (ODU) has enjoyed a wide variety of successful academic and research partnerships with the military since the University's inception in 1930 as the Norfolk Division of the College of William and Mary. Nearly a third of today's 21,000 students have military affiliations, and one-half of the institution's 40 formal academic and research partnerships are with the military sector. ODU is a recognized leader in the field of distance education. The University's military outreach has led to the design and development of specific programs tailored to a military audience to include undergraduate courses (upper division) in Engineering Technology and graduate offerings in Engineering Management and Business.

Old Dominion University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master's, educational specialist, and doctoral degrees.

Again, the Department of Engineering Management and Systems Engineering at Old Dominion University is the recipient of the American Society of Engineering Management's (ASEM) Award for "Excellence in Academic Leadership of Graduate Programs in Engineering Management." The 2005 award marks the fourth time that ODU's program has received national acclaim having been so recognized in 1995, 2000, and 2002.

Getting Started

Old Dominion University offers upper division Engineering Technology courses through NCPACE. The courses have the following prerequisites:

- Eligibility for admission into the University as a transfer student - 2.20 GPA (on a 4 point scale), earned with grades on at least 25 semester hours or 42 quarter hours of college courses. Associate's degree recommended, but not required.
- College credit for calculus (integral and differential).
- Advisor approval – send unofficial copies of your SMART and college transcripts to rcurry@odu.edu or fax. (Attn: Dr. Curry).

Substantial credit is offered for military training.
